Hydrobiologia

The International Journal on Limnology and Marine Sciences

Volume 488, 15 November 2002

Theme
Lake Naivasha, Kenya

Guest Editors
D.M. Harper, R.R. Boar, M. Everard & P. Hickley

Preface
David M. Harper, Kenneth M. Mavuti vii

Introduction
The Lake Naivasha Management Plan – consensus-building to conserve an international gem
Enniskillen ix–xii

Towards an understanding of human impact upon the hydrology of Lake Naivasha, Kenya
Robert Becht, David M. Harper 1–11

The physical attributes of the Lake Naivasha catchment rivers
Mark Everard, Jacqueline A. Vale, David M. Harper, Håkan Tarras-Wahlberg 13–25

Geochemical and physical characteristics of river and lake sediments at Naivasha, Kenya
Håkan Tarras-Wahlberg, Mark Everard, David M. Harper 27–41

Aspects of the biodiversity of the rivers in the Lake Naivasha catchment
Mark Everard, Anthony Kuria, Michael Macharia, Jacqueline A. Vale, David M. Harper 43–55

Chemical characteristics, with particular reference to phosphorus, of the rivers draining into Lake Naivasha, Kenya
Nzula Kitaka, David M. Harper, Kenneth M. Mavuti, Nic Pacini 57–71

Phosphorus inputs to Lake Naivasha, Kenya, from its catchment and the trophic state of the lake
Nzula Kitaka, David M. Harper, Kenneth M. Mavuti 73–80

Magnetic susceptibilities of lake sediment and soils on the shoreline of Lake Naivasha, Kenya
R.R. Boar, David M. Harper 81–88

Phytoplankton community structure and succession in the water column of Lake Naivasha, Kenya: a shallow tropical lake
David S. Hubble, David M. Harper 89–98

Nutrient control of phytoplankton production in Lake Naivasha, Kenya
David S. Hubble, David M. Harper 99–105

Impacts of the C_4 sedge *Cyperus papyrus* L. on carbon and water fluxes in an African wetland
M.B. Jones, S.W. Humphries 107–113

The dynamics and ecology of exotic tropical species in floating plant mats: Lake Naivasha, Kenya
C.S. Adams, R.R. Boar, D.S. Hubble, M. Gikungu, D.M. Harper, P. Hickley, N. Tarras-Wahlberg 115–122

Organochlorine and organophosphorus pesticide concentrations in water, sediment, and selected organisms in Lake Naivasha (Kenya)
S.M. Gitahi, D.M. Harper, S.M. Muchiri, M.P. Tole, R.N. Ng'ang'a 123–128

Feeding of the exotic Louisiana red swamp crayfish, *Procambarus clarkii* (Crustacea, Decapoda), in an African tropical lake: Lake Naivasha, Kenya
Andrew C. Smart, David M. Harper, François Malaisse, Sophie Schmitz, Stephanie Coley, Anne-Christine Gouder de Beauregard 129–142

Distribution and abundance of the Louisiana red swamp crayfish *Procambarus clarkii* Girard at Lake Naivasha, Kenya between 1987 and 1999
David M. Harper, Andrew C. Smart, Stephanie Coley, Sophie Schmitz, Anne-Christine Gouder de Beauregard, Rick North, Chris Adams, Paul Obade, Mbogo Kamau 143–151

Population structure and secondary productivity of *Limnodrilus hoffmeisteri* (Claparede) and *Branchiura sowerbyi* Beddard in the profundal zone of Lake Naivasha, Kenya
Phil Raburu, Kenneth M. Mavuti, David M. Harper, Frank L. Clark 153–161

Population changes in sympatric Great and Long-tailed Cormorants (*Phalacrocorax carbo* and *P. africanus*): the effects of niche overlap or environmental change?
R. Brooks Childress, Leon A. Bennun, David M. Harper 163–170

Population fluctuations and their causes in the African Fish Eagle, (*Haliaeetus vocifer* (Daudin)) at Lake Naivasha, Kenya
David M. Harper, Maureen M. Harper, Munir A. Virani, Andrew Smart, R. Brooks Childress, Rachel Adatia, Ian Henderson, Bernard Chege 171–180

The status and future of the Lake Naivasha fishery, Kenya
Phil Hickley, Roland Bailey, David M. Harper, Rodrick Kundu, Mucai Muchiri, Rick North, Andy Taylor 181–190

Concluding remarks
Towards the sustainability of the Lake Naivasha Ramsar site and its catchment
Mark Everard, David M. Harper 191–203
